ACADEMICS

BSc Computer Science (AI & ML) 2024–Present

Takshashila University

CGPA: 8.5 / 10

Higher Secondary (HSC) 2022–2024 60%

Walter Scudder Hr. Sec. School

10th Standard (SSLC) 2021–2022 65%

Sri Rajarajeswari Matric Hr. Sec. School

Technical Skills

IT Support:

- Windows 10/11, Hardware & Software Troubleshooting
- Laptop/Desktop Deployment and Configuration

Programming Languages:

- Python, Java, JavaScript, HTML5, CSS3, SQL

Data & Visualization:

- Pandas, NumPy, Matplotlib, Seaborn, Tableau, Excel

Web Development:

- HTML5, CSS3, JavaScript, Responsive Design, Bootstrap

Tools & Platforms:

- Azure AI, VS Code, Git/GitHub, Jupyter, UiPath, Salesforce

Hackathons & Achievements

Hackathons & Events

- Participated in an India-level national hackathon, collaborating to design and prototype solutions under tight time constraints.
- Participated in multiple college hackathons, building functional prototypes with agile teamwork.

Key Achievements

- Earned 5+ industry certifications spanning Microsoft Azure, UiPath, Salesforce, and LinkedIn Learning.

Certifications

- **Microsoft Applied Skills:** Azure AI Language (2025)
- **Microsoft Azure AI Advanced Certification** (2024)
- **Microsoft Applied Skills:** Secure Azure Storage
- **UiPath RPA Developer Foundation** (2024)
- **Salesforce Associate / Developer Fundamentals**

Experience

IT Support Intern — Integra Software Services Pvt. Ltd.

1 Month

Puducherry, Tamil Nadu

- Completed a one-month internship in an **IT Support** role, gaining practical experience in enterprise IT operations.
- Assisted with hardware and software troubleshooting for laptops and desktop systems.
- Supported Windows 10/11 system configuration, deployment, and basic technical issue resolution.
- Gained hands-on exposure to diagnosing common desktop, laptop, and software-related technical issues.
- Developed practical understanding of IT support workflows, system maintenance, and end-user technical assistance.

Project Showcase

– LoanBook AI — Flutter, Firebase, Google ML Kit OCR

- Developed an AI-powered Gold Loan Management mobile application using Flutter.
- Implemented Google Authentication and Cloud Firestore for secure user management.
- Integrated Google ML Kit OCR for automatic receipt data extraction.
- Designed loan calculation, interest tracking, and repayment management.

– Real-Time Chat Application (PWA) — Vue.js, Node.js

- Built a Progressive Web Application supporting real-time messaging.
- Implemented authentication, instant messaging, and responsive UI.
- Used Socket.io for low-latency communication.
- Integrated Firebase and MongoDB for authentication and data storage.

– Fluento – English Learning Platform — HTML, CSS, JS

- Developed an English learning Progressive Web Application.
- Implemented Google Authentication with persistent login.
- Built daily speaking tasks, progress tracking, and push notifications.
- Designed a mobile-first responsive interface using Firebase.

– WhatsApp Automation Tool — Python, Tkinter, JSON

- Developed a desktop automation tool for sending WhatsApp messages.
- Created a user-friendly graphical interface using Tkinter.
- Managed contact information and templates using JSON.
- Improved repetitive messaging efficiency through automation.
